

**What is required to download an eBook to a Kindle?**

- A valid Canton Public Library card
- A laptop or desktop computer
- A Kindle (standard Kindle or Kindle Fire)
- An OverDrive account
- An Amazon account (Kindle registered with this account)

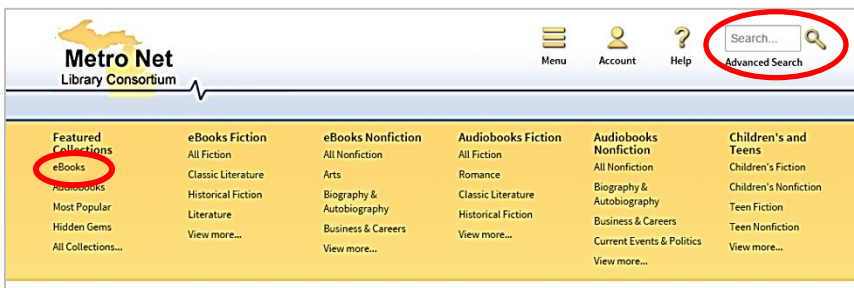

Using a laptop or desktop computer, go to [www.cantonpl.org](http://www.cantonpl.org) and click on **eMedia** under the Research heading on the left of the page. Click the **Check Out** button under **OverDrive eBooks**.

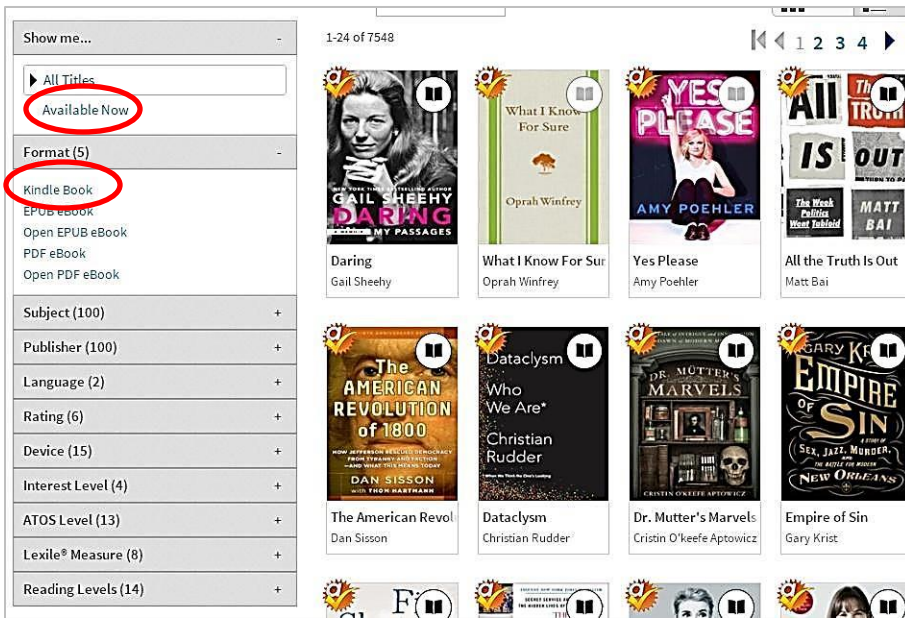

**Sign in** by choosing **Canton Public Library** from the drop-down list and then entering your name (first, last, or both) and your Canton Public Library card number.

You can search for a book in the search bar, click on **Advanced Search** to enter specific criteria, or choose **eBooks** from the available lists.

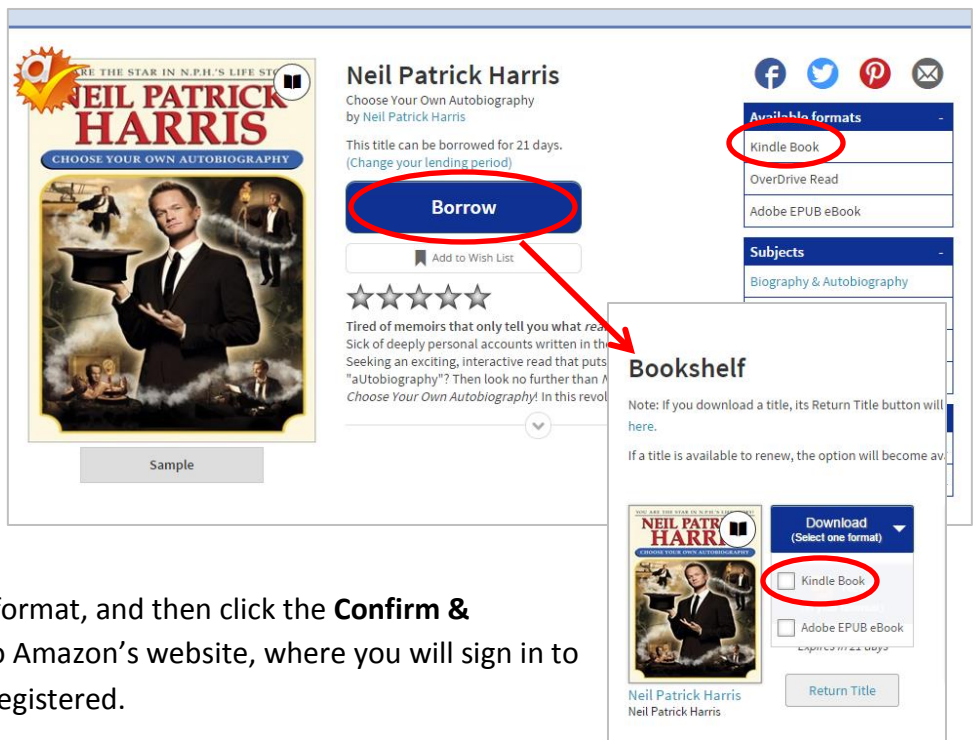

Once you have a list of results, you can determine an item's format and whether or not it is available from the book cover. eBook titles have a book icon, eAudiobooks have a set of headphones. The icon will be black and white if available, grey if not. If the item is not available you can place a hold, just as you would for an item in the library. You can also use the filter options on the left to narrow your results down to Kindle titles, or items that are currently available.

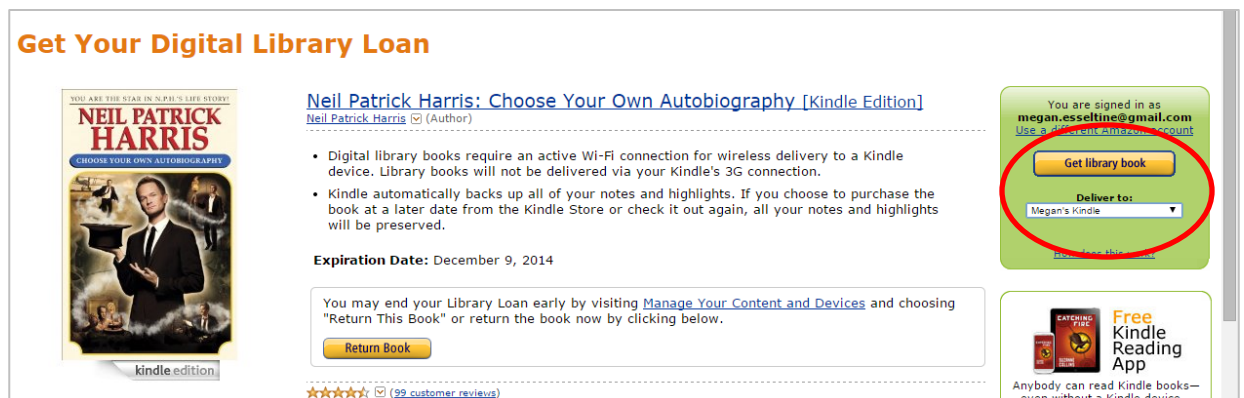

Click on the book cover to check the item out, or click on its title below to see available formats, a summary, etc. Make sure the **Available Formats** include **Kindle Book**.

When you are ready to check out, click **Borrow**. This will direct you to your Overdrive bookshelf where you can **Download** your book in Kindle format.

Click **Download**, select **Kindle Book** format, and then click the **Confirm & Download** link. This will direct you to Amazon's website, where you will sign in to the account to which your Kindle is registered.

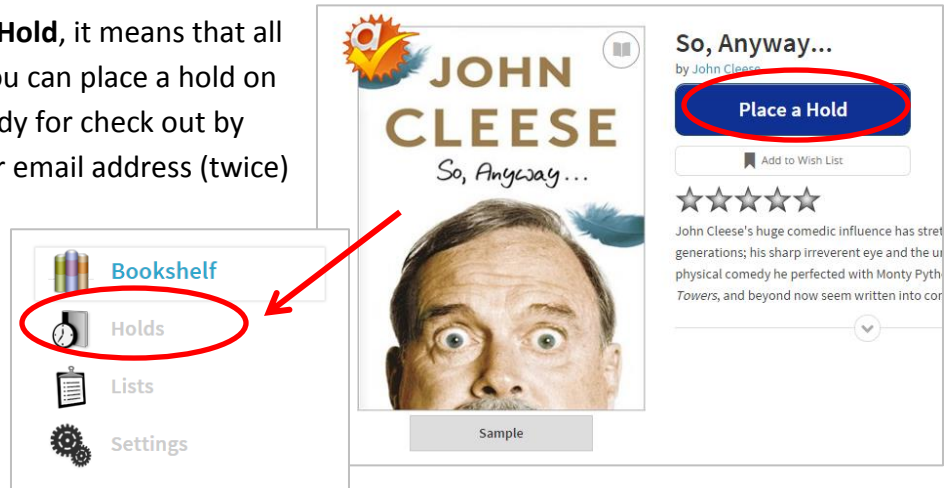

You will be sent to the Amazon page for this library loan. (If this page does not appear, return to your OverDrive bookshelf and click on **Download** again.) Select your Kindle from the **Deliver to** drop-down menu and click **Get Library Book**.

You will then be sent to a confirmation page. If your Kindle has Wi-Fi, the book will be sent wirelessly to your Kindle the next time it is connected to a Wi-Fi signal. The confirmation page will also have a Download Now button, in the event that you wish to download and transfer the title directly to your device. (Note: If your Kindle does not have Wi-Fi, you will have to download the title and transfer it via USB.)

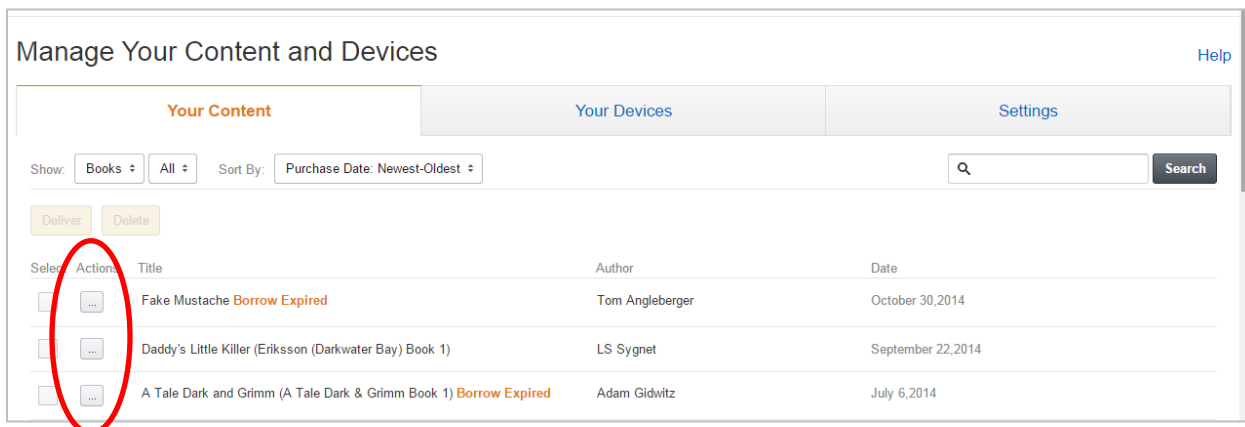

## Placing Holds

If you get a message that says **Place a Hold**, it means that all copies of the book are checked out. You can place a hold on the item and be notified when it is ready for check out by clicking **Place a Hold** and entering your email address (twice) on the next screen. You will get an email when the item is available, and will then have three days to sign in to return to your OverDrive account, go to **Holds** (under your bookshelf in the Account menu) and check it out.

## Returning a book

Your book will be returned at the end of the 21-day lending period. To return a title early or delete it from your Kindle Library, sign in to your Amazon Account and go to **Manage Your Content and Devices**. This will direct you to your Kindle Library. Click the **Actions** button to the right of the title and select **Return This Book**. Confirm by clicking **Yes**.

## Tips

- If you have an issue logging in to the Metro Net OverDrive page, remember that the name you use must exactly match what is on your ID, and that your card must be in “good standing”, meaning it has not expired, that fines are under the \$20 limit, and there are no other blocks on your account.
- If your Kindle is properly connected to Wi-Fi but did not receive your title, Sync your device under **Settings->Sync**.
- More information on using the OverDrive mobile app is available on OverDrive’s [Help page](#).
